The Board next reviewed the Engineer's Report, a copy of which is on file in the official records of the District.

LEVEE.

The levee was last inspected on May 12, 2025 and on June 3, 2025. There appears to be items encountered on the levee that could have resulted from the additional bores done by Freese and Nichols for the Levee Recertification. There were also other items encountered:

1. 1' deep hole and loose dirt with plaster.
2. Residential fence fallen into ditch.
3. 1' deep hole.
4. Mound of plaster.
- 5.. Minor erosion.
6. Broken cable fence post near highway.
7. Branch on fence.
8. Fallen Tree.
9. Fractured concrete shoreline. Erosion cavity is forming underneath gabion basket. Sod has died.
10. Erosion on bank and ponding water. Lots of trash.
11. Cracks in concrete spillway

WATER REUSE PROJECT.

Harris County has approved the first phase of water reuse project. The District will need an additional easement once the project is reactivated by the district. Contract documents are at 60%. EHRA will begin reaching out to the HOA for easement requests.

EMERGENCY BUILDING ENLARGEMENT/ TRACT D EHRA has completed survey of the area around the existing emergency building. Design is completed. This project has been submitted for Constructability review, QAQC, and Harris County Engineers Office. EHRA has received approval from Harris County Flood Control and is waiting for approval from Harris County Engineering Department. Harris County is requiring that the pump station be platted in order to obtain full approval. The plat has been submitted to Harris County and the City of Houston. The plat is anticipated to be on the May 15, 2025 City of Houston Planning Commissioning agenda. A 20-foot wide Access Easement will be needed from the Homeowner's Association in order to have the plat recorded. The Access Easement document is being prepared. It is currently anticipated to have a fully recorded plat at the end of September. The access easement will be sent to the HOA for execution and will then be presented to the Board for execution.

LEVEE CERTIFICATION

FEMA has requested for Northgate Crossing MUD 1 to submit a Certification Package prior to the Preliminary FIRM release. The Levee at Northgate Crossing is still certified under current maps. Freese and Nichols is currently preparing the 65-10 documentation for Levee Recertification. The O&M Draft has been completed. The Levee Recertification report was submitted to FEMA on May 2, 2025. There have been no comments yet received regarding the Levee Recertification report. The report will be updated once any comments are received. Freese and Nichols conducted the additional geotechnical bores for the Levee Recertification report.

NORTHGATE CROSSING MUD No. 2 ("NG2") WATER PLANT AND WATER WELL UPDATES

The NG2 engineer has indicated that it will take a week to finish well development before 36-hour test is started. The Ground Storage Tank (GST) is 99% complete. The control building and hydro-pneumatic tank have been erected. The contractor for the water plant is currently working on electrical duct banks, generator pad, and booster pump piping. It is anticipated that the water plant will be completed in September 2025.
